- 3.9. The parties acknowledge that the banks through which payment of the trades are made, have specific cut-off times for the receipt and release of electronic payments. Where a quotation is denominated in a currency other than Australian dollars, KVB may convert the quoted amount into Australian dollars using an exchange rate selected by KVB in good faith.
- 5.2. Once the mark-to-market value of each terminated FX Transaction has been determined, each value will be aggregated to obtain a final net amount. If this final net amount calculated shows that monies are owed by the Customer to KVB, then the Customer must pay this amount to KVB. If this final net amount calculated shows that monies are owed by KVB, to the Customer, then KVB will pay this amount to the Customer.
- 5.3. KVB will notify the Customer of their determinations under this clause as soon as is reasonably practicable.
